Abstract Heart Pattern Artwork
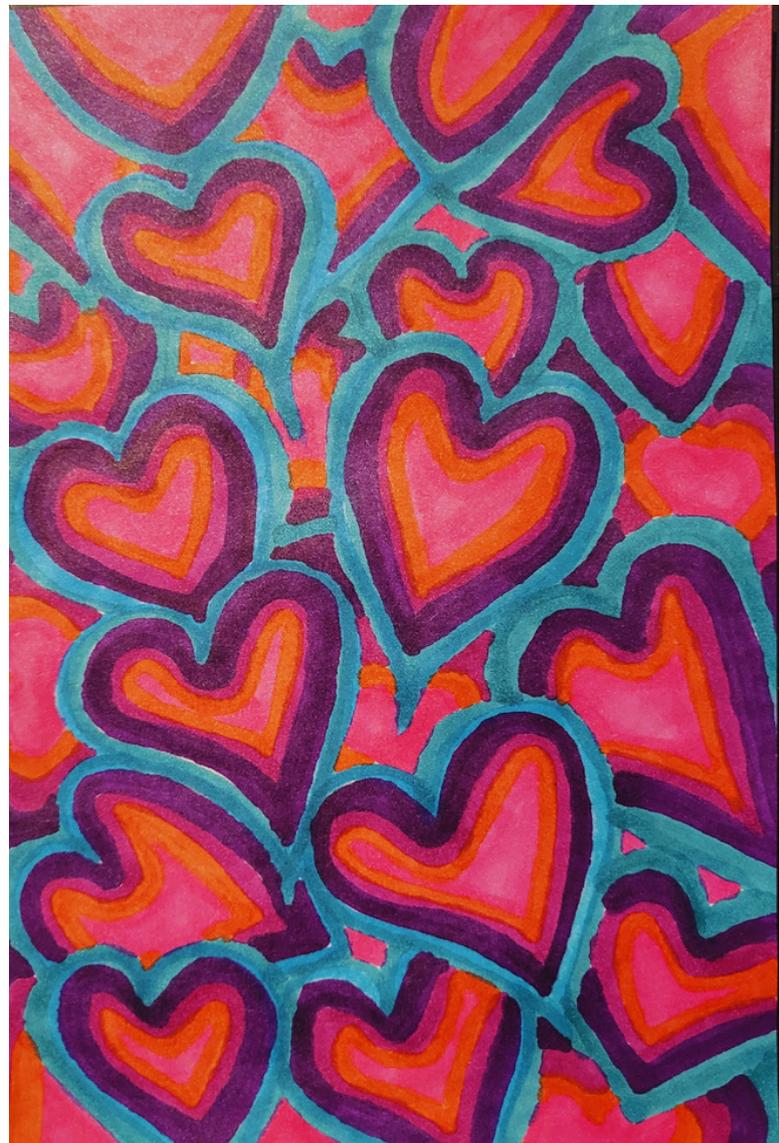

This artwork makes a great gift to someone special, especially if you frame it.

What you need:

- Paper
- Textas (I used graphic art markers)

What to do:

1. Choose colours for the love hearts. I chose light pink, orange, dark pink, purple and blue for the repeating pattern.
2. Using the first colour, draw love hearts all over the page.
3. Change to the second colour and draw inside the hearts. See the picture below. I started with blue hearts, then added purple lines under the blue lines.
4. Keep changing colours until all the space inside the hearts and the space around the hearts are full.
