

Become an Energy\$mart Business

Rising energy bills got you down?

Get \$mart about energy! Future proof your business from rising energy costs by going solar and upgrading your lights through Council's Energy\$mart program.

Free lighting and solar assessments by experienced and reputable providers

No obligation quotations for quality products and installation

A great return on investment through a solar system, with typical payback periods of between five and 10 years

Reduced lighting and maintenance costs by up to 80 per cent through long lasting LED lights

Obtain low interest finance to help fund these projects with Environmental Upgrade Finance

Wyndham City have partnered with Energy\$mart specialists to provide these services:
