Introduction

Vision
Wyndham City Libraries’ vision is:

Goals
1. To act as a community connector and focal point
2. To be a gateway to information for all
3. To encourage and support lifelong learning and a love of reading
4. To provide excellent customer service at all times
5. To improve the quality and effectiveness of the library service
6. To develop sustainable business practices

Access
Access to the collection by the whole community is a key priority. Wyndham City Libraries will work to maximise access by providing:

- knowledgeable, welcoming and helpful staff
- well-ordered and organised collections
- strategic marketing of the collection
- 24/7 virtual access through the library website including access to the library catalogue, reservations, renewals and online resources
- free requests and transit requests between branches
- multiple copies of highly requested items (standard of 1 copy for every 3 pending requests)
- well designed, signposted and accessible buildings
- Home Library Service for eligible borrowers unable to physically attend the library

Community analysis
Wyndham is currently one of the fastest and largest growing local government areas in Australia. The estimated resident population of Wyndham in 2017 was 241,902, and with an annualised average growth rate of 6.2%, the population of Wyndham is forecast to reach 489,379 by 2041,
which will take us to the end of the current *Library Service Strategy* period. Figure 1 shows the forecast population of Wyndham over the period 2016–2041.

**Figure 1: Forecast population of Wyndham, 2016-2041**

Table 1 shows the five-year age group structure of the 2016 resident population with interesting divergences from the population of Greater Melbourne. These differences are summarised by .id, demographic consultants, as follows:¹

By comparison with the Greater Melbourne average, Wyndham in 2016 had:

- A larger percentage of persons aged 0 to 4 (9.8% compared to 6.4%)
- A larger percentage of persons aged 5 to 9 (8.5% compared to 6.2%)
- A larger percentage of persons aged 30 to 34 (10.8% compared to 8.2%)
- A larger percentage of persons aged 35 to 39 (9.4% compared to 7.3%)

The growth in the proportion of residents under the age of 15, and aged 30-39, tallies with the reputation of Wyndham as a place for first-time home owners, and for young parents with their infant children. The popularity of children’s programming across the library service is reflective of the trend for aspirational parents to engage their children with lifelong learning and literacy early in the life of the child.

Bearing community aspirations in mind, Wyndham also has a significant SEIFA score, reflecting pockets of significant social and economic disadvantage in the municipality. Wyndham’s overall level of disadvantage slightly increased over the five years from 2011-2016 (2016: 1009; 2011: 1013; a lower score indicates greater disadvantage). Wyndham also had one of the highest proportions of vulnerable children in Victoria (Australian Early Development Census 2015), with 26.4% of all children in Wyndham being judged developmentally vulnerable in at least one of the five developmental domains (physical, social, emotional, language, and/or communication development).

The makeup of Wyndham’s culturally and linguistically diverse community has also changed significantly over the five years 2011-2016. Table 2 shows a list of language groups identified in the 2016 Census with more than 1,000 locally resident speakers.

Some language groups have had increases in the locally resident population of more than 2,000 residents. Table 3 shows the five largest-growing language groups over the period 2011–2016. The five fastest-growing community languages were Punjabi, Hindi, Mandarin, Urdu, and Gujarati.

The major demographic trends with impacts for Wyndham City Libraries are:

- **Ongoing population growth pressures** at the northern, southern and western fringes of the developed areas of Wyndham, stretching from the existing development edges to the established Urban Growth Boundary (UGB). The *Library Service Strategy 2018-2040* describes a future nine libraries strategically located at key activity centre locations throughout the municipality.

- While the overall proportion of very young residents is stable, the **number of very young residents continues to grow**. At the time of the 2016 Census, a large proportion of Wyndham’s population was **under the age of 10**, making up 18.3% (2011: 16.9%) of the population compared with the Greater Melbourne average of 12.6%.

- The **proportion of residents over 60 years of age is increasing**. Over the period 2016 to 2041 this age group will grow from 11.4% to 17.2% of Wyndham’s population. Wyndham has a lower than average proportion of its population aged over 60 when compared with the Greater Melbourne average.

- In 2016, 41% of Wyndham residents were **born overseas** (2011: 33.6%; 2006: 25.2%; 2001: 22.6%). The total number of residents born overseas grew by 65.9% from 2011 to 2016.

- Wyndham has the third highest population of people identifying as **Aboriginal and/or Torres Strait Islander** in metropolitan Melbourne (1,732 individuals in 2016). Over the decade 2006–2016, Wyndham’s Aboriginal and/or Torres Strait Islander population increased by 1,036 people (148%). 41.5% of Aboriginal and/or Torres Strait Islander people in Wyndham are aged 17 years or younger.

- Wyndham has a **strongly-growing proportion of residents from non-English speaking backgrounds** – in 2016, 34% of residents (2011: 30.3%). In 2006 the proportion was 21% of the population, up from 18% in 2001.

- Compared to the rest of Melbourne, Wyndham has a marginally larger percentage of school leavers at Year 9 (5.3% compared to 4.9%), Year 10 (13.1% compared to 11.4%) and Year 11 (10.5% compared to 10.2%).

Wyndham City acknowledges the peoples of the Kulin Nation as the Traditional Owners of the land on which Wyndham is currently being built. Wyndham City Libraries also acknowledges the adverse impact of the displacement of Traditional Owners since colonisation, and the ongoing discrimination, grief and loss endured by Aboriginal people as a result of being disconnected from their language, culture and traditions. Wyndham City has adopted a Reconciliation Action Plan to further our journey to reconciliation.

Wyndham City Libraries commits to:

• providing a library collection that includes a variety of depictions and perspectives by Aboriginal and Torres Strait Islander peoples, with a particular emphasis on acquiring materials relevant to Aboriginal people from Victoria;
• providing a collection which is accessible, inclusive, and which empowers Aboriginal and Torres Strait Islander people to share their heritage and strengthen their communities; and
• upholding and expanding Aboriginal and Torres Strait Islander peoples’ knowledge and cultural practices through the sharing of relevant materials with the Wyndham community.

Newspapers

Aim

To provide the community with access to current news information available in print newspapers.

Description

A collection of national, state, and local print newspapers. The current issues are kept on display with limited back issues kept on open access.

Wyndham City Libraries can only subscribe to newspapers printed in Australia. The library is unable to procure newspapers printed outside Australia.

Subscriptions to newspapers in languages other than English are reassessed annually based upon relevant and current demographic data, estimated usage, reliability of publication and timeliness of delivery.

Wyndham’s local newspapers are considered a valuable source of information for the community. They are kept in closed access. The collection of local print newspapers is supplemented by access to national, local and international newspapers online.

Scope

The number of back issues kept for particular newspapers is an operational decision at the branch library level, and newspaper retention schedules differ by both branch and newspaper.

Newspapers with local significance

The Plaza Library maintains a repository of back issues of local-area print newspapers indefinitely (currently, the Wyndham Star Weekly).

Current Plaza Library holdings are outlined below. As of 2018, a detailed schedule of local newspaper holdings can be found in the Library Knowledge Base (Confluence).

Local History Collection

Develop materials on Wyndham’s heritage for local schools to include in their curriculum; encourage local students and groups to research lesser known aspects of Wyndham’s history. Quality Community Plan - Vision for Heritage, Culture and the Arts

Aim

Wyndham City Libraries has a commitment to collecting, preserving and making accessible information about the local area. The intention is to develop a collection with a wide range of materials that makes available information relating to all aspects of the Wyndham municipality’s past, present and future and will include resources relating to its cultural development, history, society and environment.

Description

The information will be in a number of formats including books, magazines, pamphlets, newspapers and online resources. An emphasis is placed on utilizing new technologies to make this information available.

Acquisition of all material will be in accordance with and in consideration of the collecting guidelines of National Archives of Australia and the Public Records Office of Victoria.

As Wyndham has not developed in isolation, it is important for the Local History collection to acquire a number of pivotal texts relating to the history of Victoria and Australia. In general, however, works of state-wide historical interest will be limited and only included when deemed of relevance to the Local History and/or Genealogy collections. For consistency, these items will be catalogued and shelved with the Genealogy Collection.

The Library has acquired a number of objects relating to the Wyndham City Council’s operations. As custodian, the Library is committed to ensuring they will be cared for in an appropriate manner. With the exception of this material and a few items retained for display purposes, the acquisition of object-based material will be limited. When offered to the Library this type of material will be assessed on a case-by-case basis. Acceptance will only be made after taking into consideration its research and display value and its conservation and preservation needs.

When offered original archival material that needs specialised care and preservation the Library will endeavour to assist the donor to find an alternative home for it. Initially the Library will consult with State Library of Victoria and/or the Museum of Victoria to determine whether the material is of “state-wide” significance. If it is so deemed, the Library will help to facilitate the transfer of the material to the appropriate institution. If the material is deemed of local significance only the Library
will endeavour to find a home for it within the municipality. Material of significance may be copied for inclusion in the Local History Collection.

The Library has, in the past, worked in partnership with the Werribee and District Historical Society to enable the Library to provide access to images of the local area via the online catalogue and Picture Australia.

All additions to the local history collection are considered in light of the aims and ongoing management of the Wyndham History Project, particularly materials such as photographs and recordings, which may be digitised for inclusion in the digital archive.

**Target Audience**

Residents interested in the history of the area. Students and researchers both from the local area and beyond interested in learning about Wyndham’s heritage.

**Responsibility**

Family and Local History Librarian

Collections and Information Services Coordinator

**Unique Selection Criteria**

- Information about and relevant to the Wyndham area

Weeding and Appraisal of Items

All staff are responsible for changing damaged, dirty, faulty or unappealing items to mending status. Staff may use the Weeding/Appraisal form to report to the relevant staff member responsible for appraisal why an item has been placed in the Weeding/Appraisal box, replacement copies are purchased where appropriate.

The following staff are responsible for overseeing the appraisal of these resources:

**Adult Resources** Collections and Information Services Coordinator, and branch Library Coordinators

**Junior & Youth Resources** Team Leader Children’s Programs and Services, Team Leader Library Education and Youth Programs and Services, and Children’s Librarians, and Education and Youth Services Librarians

Collection weeding is a routine process that supports the collection goals and maintains the attractiveness, currency and relevance of the collection. Items must be periodically removed from the collection to create space for new resources and to ensure that shelves are not overstocked.

Materials may be discarded based on the following criteria:

- Currency or accuracy of information
- New edition available
- Age of the item
- Physical condition of the item
- Number of copies in the collection
- Online availability
- Capacity of library buildings
- Circulation of the item (not borrowed in a certain period or not meeting turnover rates)

These criteria may not be equally relevant for all collections and are suitably adjusted to meet the needs of the area being appraised; works of enduring literary merit may be retained outside of these criteria.

Items discarded from the collection may be sold, recycled or donated to organisations within the community.

**Evaluation**

The collection is evaluated by statistical analysis; evidence based stock management, feedback from library customers and staff. Statistics including circulation and turnover rates, overall age of the collection and total number of items are used to measure the success of the collection.
**Donations**

From time to time, materials may be donated to the library for potential inclusion in the collection. Donated items are accepted only when offered without conditions. All donated items are evaluated in accordance with the criteria applied to purchased materials. Unsuitable and unwanted items are dealt with by sale, donation or disposal.

Donated materials may include self-published, self-printed, small press, small print run and print-on-demand titles. These items typically have not been reviewed in standard published sources and often do not meet selection criteria.

**Self-published, self-printed, small press, small print run and print-on-demand items**

Informational and recreational items added to the collection have ordinarily undergone significant editorial review and intervention as part of the publication and production process, and have typically been reviewed in standard published sources.

Self-published, self-printed, small press, small print run and some print-on-demand titles often do not undergo editorial review, editorial intervention, accuracy checking or peer review. These items typically have not been reviewed in standard published sources. Items of this nature are not generally considered for addition to the collection.

A limited exception may be made for material judged to have some special significance for the collection, including local historical value or value for genealogical research.

**Controversial Materials and Censorship**

The ALIA Statement on Freedom to Access Information (Appendix 1) and the IFLA Statement on Libraries and Intellectual Freedom (Appendix 2) underpins the selection and distribution of materials in the Library. Wyndham City Libraries does not support any particular view and has a duty to the community to offer a balanced collection by including information on all sides of an issue. Selections will not be made on the basis of any anticipated approval or disapproval by individuals or groups. Materials which demean or objectify particular individuals or groups of people are excluded from selection.

Wyndham City Libraries acknowledges that the collection may contain materials that are offensive to Aboriginal and Torres Strait Islander peoples.

Wyndham City Libraries commits to:
• developing an awareness of the extent to which the collection may contain materials which will be offensive to Aboriginal and Torres Strait Islander peoples;
• taking advice from and develop effective consultation strategies with Aboriginal and Torres Strait Islander peoples in relation to sensitive materials;
• developing strategies to deal appropriately with offensive materials in consultation with Aboriginal and Torres Strait Islander peoples (ATSILIRN Protocols, no. 7).

It is the responsibility of parents to guide children under the age of 18 in the selection of materials and take responsibility for items borrowed.

The power to censor materials lies with the Federal and State Governments, items prohibited by law will not be considered for inclusion into the collection. Any restrictions imposed on the access of items in the collection will be observed by the library.

**Feedback**

We welcome feedback about the library. Any complaints received regarding items in the collection are responded to by the staff member with responsibility for the relevant collection area. In the case where the staff member is not available at the time of complaint it will be passed on to them for follow up. Where possible verbal complaints are responded to in person or over the telephone and written complaints are responded to in writing. Challenged items will be evaluated and decisions regarding the outcome of the challenged items will be based on the selection criteria and the information in the supporting documentation (Appendix 1 and 2).
Appendices

Appendix 1 ALIA Statement on Free Access to Information

ALIA objects addressed

To promote the free flow of information and ideas in the interests of all Australians and a thriving culture and democracy.

Principle

Freedom can be protected in a democratic society only if its citizens have unrestricted access to information and ideas.

Statement

There are several different levels at which the free flow of ideas can be impeded. At the societal level, legislative bodies of all kinds are expected to consider the legal and regulatory frameworks they put in place to support the free flow of information and ideas about the interests and concerns of citizens. At the institutional level, library and information services are expected to encourage the free flow of information and ideas within the scope of their roles and responsibilities. At the individual level, citizens are expected to make informed decisions in exercising their rights and responsibilities.

The Australian Library and Information Association believes that library and information services have particular responsibilities in supporting and sustaining the free flow of information and ideas including:

1. asserting the equal and equitable rights of citizens to information regardless of age, race, gender, religion, disability, cultural identity, language, socioeconomic status, lifestyle choice, political allegiance or social viewpoint;
2. adopting an inclusive approach in developing and implementing policies regarding access to information and ideas that are relevant to the library and information service concerned, irrespective of the controversial nature of the information or ideas;
3. ensuring that their clients have access to information from a variety of sources and agencies to meet their needs and that a citizen’s information needs are met independently of location and an ability to pay;
4. catering for interest in contemporary issues without promoting or suppressing particular beliefs and ideas;
5. protecting the confidential relationships that exist between the library and information service and its clients;
6. resisting attempts by individuals or groups within their communities to restrict access to information and ideas while at the same time recognising that powers of censorship are legally vested in state and federal governments;
7. observing laws and regulations governing access to information and ideas but working towards the amendment of those laws and regulations which inhibit library and information services in meeting the obligations and responsibilities outlined in this Statement.
IFLA (The International Federation of Library Associations and Institutions) supports, defends and promotes intellectual freedom as defined in the United Nations Universal Declaration of Human Rights.

IFLA declares that human beings have a fundamental right to access to expressions of knowledge, creative thought and intellectual activity, and to express their views publicly.

IFLA believes that the right to know and freedom of expression are two aspects of the same principle. The right to know is a requirement for freedom of thought and conscience; freedom of thought and freedom of expression are necessary conditions for freedom of access to information.

IFLA asserts that a commitment to intellectual freedom is a core responsibility for the library and information profession.

IFLA therefore calls upon libraries and library staff to adhere to the principles of intellectual freedom, uninhibited access to information and freedom of expression and to recognize the privacy of library user.

IFLA urges its members actively to promote the acceptance and realization of these principles. In doing so, IFLA affirms that:

- Libraries provide access to information, ideas and works of imagination. They serve as gateways to knowledge, thought and culture.
- Libraries provide essential support for lifelong learning, independent decision-making and cultural development for both individuals and groups.
- Libraries contribute to the development and maintenance of intellectual freedom and help to safeguard basic democratic values and universal civil rights.
- Libraries have a responsibility both to guarantee and to facilitate access to expressions of knowledge and intellectual activity. To this end, libraries shall acquire, preserve and make available the widest variety of materials, reflecting the plurality and diversity of society.
- Libraries shall ensure that the selection and availability of library materials and services is governed by professional considerations and not by political, moral and religious views.
- Libraries shall acquire, organize and disseminate information freely and oppose any form of censorship.
- Libraries shall make materials, facilities and services equally accessible to all users. There shall be no discrimination due to race, creed, gender, age or for any other reason.
- Library users shall have the right to personal privacy and anonymity. Librarians and other library staff shall not disclose the identity of users or the materials they use to a third party.
- Libraries funded from public sources and to which the public have access shall uphold the principles of intellectual freedom.
- Librarians and other employees in such libraries have a duty to uphold those principles.
- Librarians and other professional libraries staff shall fulfil their responsibilities both to their employer and to their users. In cases of conflict between those responsibilities, the duty towards the user shall take precedence.
