

Paper Collage

Today you are going to make a collage using bits and pieces from around the house. Things that can be added to a collage are:

- scraps of coloured paper, wrapping paper, tissue paper, serviettes
- sequins
- buttons
- pictures cut from old magazines and junk mail
- scraps of fabric
- stickers
- string, ribbon and wool
- your own drawings and patterns

How to make a collage:

- Gather all your supplies and stick everything down onto paper.
- You can make a picture like a landscape or a portrait or just see where your imagination takes you.
- You can add drawings, doodles and patterns to your collage using pencils, textas, paint, whatever you like.
- You can make a collage using only pictures or only words. Try using a mix of writing and words cut out of magazines and newspapers.
