

Architecture Activities.

Have you always dreamt of designing or building a mansion or skyscraper? Have a look at these activities:

- Do you like the Treehouse series by Andy Griffiths? Design your own treehouse on paper. What kind of rooms will it have? A never ending staircase? A burp bank? A bowling alley? A marshmallow machine?

- Design and build your own dream home. Plan it out on paper and build with Lego.

- Design a skyscraper. How many stories is it?

- Try making a silhouette drawing. Have the buildings black and colour the sky a sunset or storm.

- Plan out a fun park on paper. Is it a theme park based on your favourite book? A water park? What rides does it have?

- Get creative and make a 3D paper city.
- Have a look at more images for inspiration.
