

Make a  
pattern using  
Lego bricks

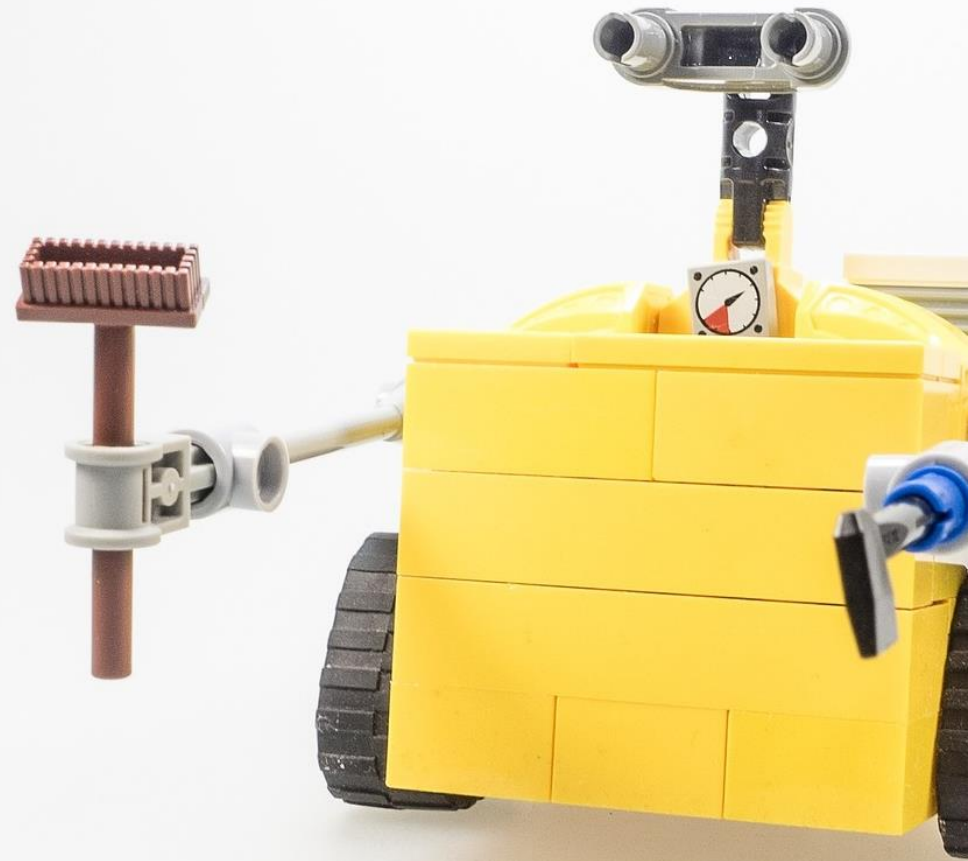

Can you build a number using Lego?

Build a Lego  
cinema

A large group of diverse Lego minifigures are arranged in several rows, sitting on red and blue baseplates. The figures represent a wide variety of characters, including children, adults, and elderly people, with different hairstyles, clothing, and accessories. Some figures have unique features like a black helmet, a white mask with large eyes, or a red cap. The background is dark, making the colorful figures stand out. The overall scene suggests a movie theater or cinema filled with a diverse audience.

Build a  
robot

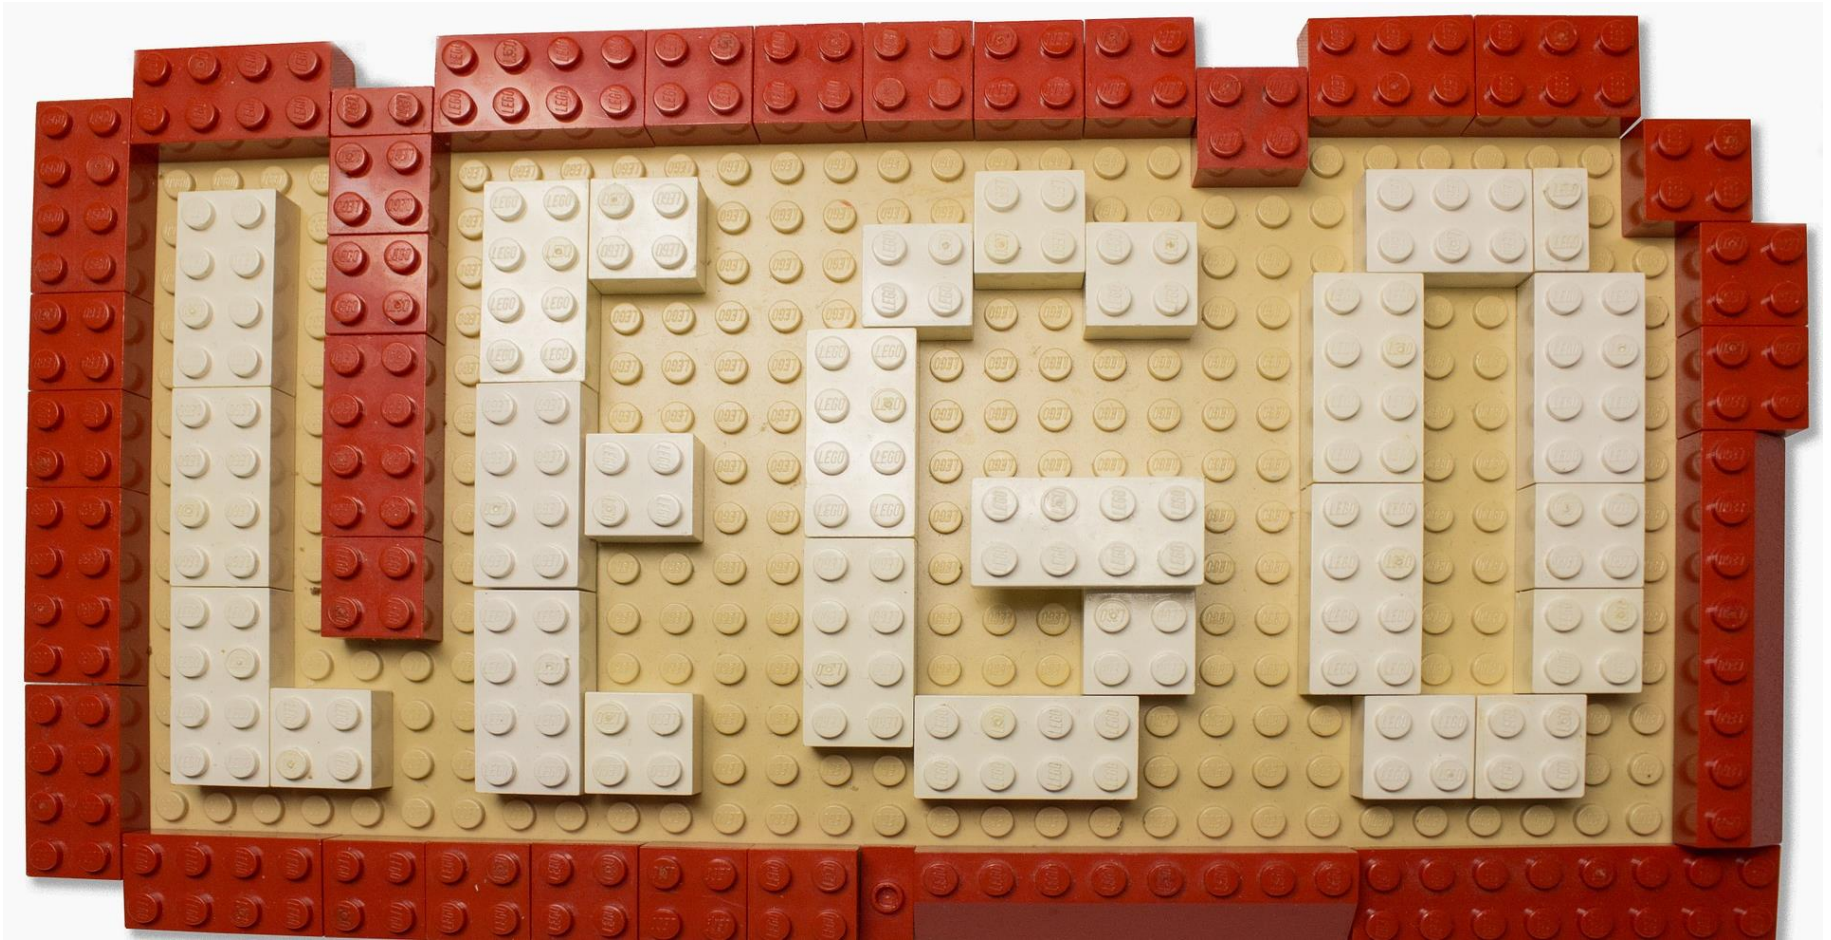

# Build a construction vehicle

# Build a construction site

Write something with  
Lego |

# Build a spaceship

**Build an army of aliens to  
go with your spaceship**

**Build a monster truck**
