

Magpie silhouette

A silhouette is a dark shape and outline of a subject. Usually the silhouette is black against a white background. Today we are going to draw and decorate a silhouette of a magpie. Use the silhouette below as a guide and draw your own on white paper using a black texta or pen. For my magpie I drew abstract designs on the areas of the magpie where the feathers are black.

Don't forget to share your creation with the [Kids Club Online Gallery](#).

If you wanted to challenge yourself then colour in parts of your magpie black and carefully cut out the white parts. If you layer the magpie against different backgrounds it looks effective.
