

Funny Flip Book

A flip book is a book where each page is cut into half or thirds. Each page has an image (like a face or an item of food) so when you turn the pages the images get all mixed up.

What you need:

- a few pieces of paper, depending on how many pages you want in your book
- drawing supplies
- scissors
- stapler

What to do:

1. Stack your paper together, fold in half and staple. I used 5 pieces of A4 paper so my books is 8 pages long, plus front and back cover.
2. Design your front cover. You are the author so don't forget to sign your name!

3. Choose a theme for your book. It could be food, animals, faces, whatever you like.
4. Now draw a different picture on each page relating to your theme. Make sure it covers the whole page.

5. You now need to cut each page in half or thirds. Make sure you cut the pages all together so the cut is in the same spot on each page. But don't cut all the way through or your book will fall apart! Don't cut the front and back pages though.

Cut along red line.

6. When you read your book turn the pages at different times so the pictures you drew look funny and all mixed up!

7. Don't forgot to submit a picture of your book to the [Kids Club Online Gallery!](#)
