

Make an I Spy Challenge

Are you a fan of the *I Spy* books by Jean Marzollo? Have you ever tried to create your own *I Spy* page? Give it a go! You will need a bunch of random objects and a camera to take a photo. The *I Spy* books always have a theme, like Halloween, treasure and animals.

To get started pick a theme and find a lot of objects. Set all your objects up on an empty flat surface like the floor or table. Take a picture. Then write the list of objects to find in the picture. Can you make them rhyme?

Here is my example. I did a Harry Potter themed *I Spy* Challenge.

Show us yours on the [Kids Club Online Gallery!](#)

I spy three balls, one large spider and three small spiders.

Can you find a potion bottle, a pen and two magic wands?

There is a coaster, envelope and book as well.

Can you find a Lego snake? A Time Turner necklace and the Deathly Hallows symbol?
