

Galaxy Painting

Today we are going to paint the galaxy!

What you need:

- Acrylic or poster paints (I used blue, purple, pink, white, gold and silver)
- Paint brush
- Paper
- Optional: metallic textas

What to do:

1. Set up your work area. Painting can get messy so cover the surface you are working on with paper, newspaper, or junk mail.
2. Put thick dabs of paint on your paper.
3. Grab your paintbrush and swirl the colours around in a rough circle, blending them together. I did it one colour at a time, starting from the middle of the page.
4. Let the painting dry overnight then add in the stars. I used metallic textas, but you can use small dots of white paint.

Upload your painting to the [Kids Club Online Gallery!](#)
