

Magic Painting

Follow these instructions and you can make a secret magic painting! You can only see the picture when you paint over it.

What you need:

- White paper
- White crayon or oil pastel
- Watercolour paints (a little food dye in water also works)
- Paintbrush

What to do:

1. Using the white crayon draw your picture on paper.
2. Paint over the paper with watercolour paints. Since the white crayon is made from wax, the water and paint runs off it, revealing your secret magic painting!

Here is my secret drawing!
