

CHRISTMAS WREATH

When it's Christmas time people like to hang a wreath on their front door. These are usually made from flowers, leaves, twigs and berries, tinsel, ribbon and baubles. We are going to make one with a paper plate!

What you need:

- Paper plate
- Paper
- Colouring supplies
- String
- Scissors
- Glue
- Sticky tape

What to do:

1. Draw around the inside circle of the plate. We will cut this out. Cut a slit through the plate so you can cut the circle and tape it back together. Save the circle for the Christmas Bauble Craft.
2. Colour in your wreath.
3. Draw some Christmas pictures on paper, colour them in, cut out and stick onto your wreath. I did leaves, red berries and stars.
4. Stick some string onto your wreath so you can hang it up.
5. Want to make it extra festive? Add some glitter, sequins and pompoms to the wreath.
6. Take a photo and upload to the [Kids Club Online Gallery](#).
