

# Line Drawing

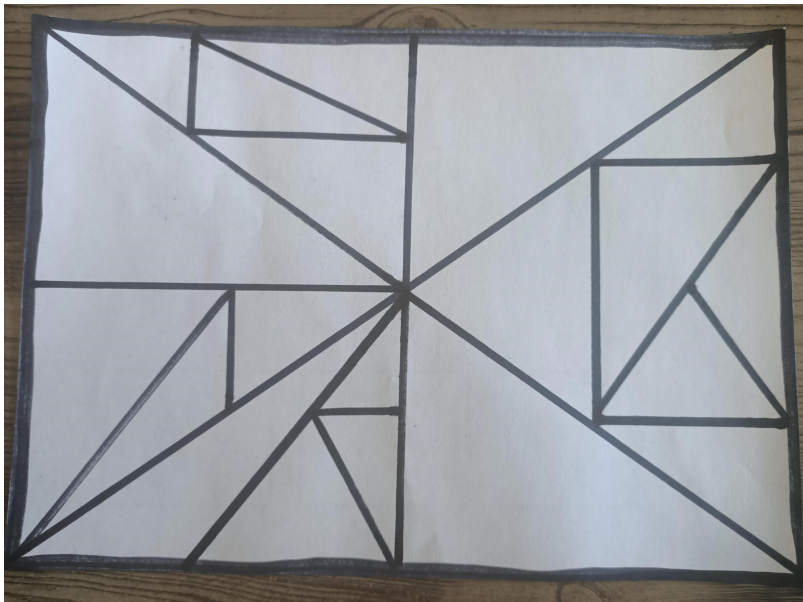

## What you need:

- Paper
- Colouring supplies
- Ruler

## What to do:

1. Using a ruler (if you have one) draw lines on the paper. I made all my shapes triangles. But you could try other shapes like diamonds or squares.

2. Colour in your design. I only used three colours and left some triangles white.

What designs can you come up with? Upload your artwork to the [Kids Holiday Activities Gallery](#). Have a look on the next page for more inspiration on line drawings.
