

Paper Spinner

What you need:

- Paper
- Cardboard (I used a cereal box)
- String
- Colouring Supplies

What to do:

1. Draw two circles on paper. I traced around a mug so they were the same size. Then draw one circle the same size on the cardboard.
2. Colour in the paper circles. Then cut them out. Cut out the cardboard circle as well. Stick a coloured circle onto both sides of the cardboard circle.
3. Poke two holes in the centre of the circle. I used a pen to do this. It's tricky so you may need an adult's help. Then thread the string through and tie the ends together.
4. Hold the string ends in each hand and twirl it around so the string twists together. Then let the string un-twirl while you hold it tight. The paper circle should spin around.
