

Pop art is an art form that uses images and words from popular culture with really bright colours. Follow the instructions to make your own masterpiece.

What you need:

- Paper
- Art supplies
- Black texta

What to do:

1. Choose your image. I decided to draw a dog. Draw with a black texta so the design shows up with all the bright colours and patterns. I made my dog have a patchwork design on its body with different line work and patterns.
2. Then draw in the background with black texta using different sections and patterns.
3. Colour everything in!
4. Show us your masterpiece on the [Kids Holiday Activity Gallery](#).
5. Have a look on the next page for pop art inspiration.
