

RECYCLED KEEPSAKE BOX

Let's make a keepsake box from materials you have around the house. You can use the box to keep things in like art supplies or your favourite things. Show us your finished box on the [Kids Holiday Activity Gallery](#).

What you need:

- A box. You could use a tissue box, a shoe box or something similar.
- Craft materials to decorate your box with. You would use scrap paper, fabric, wrapping paper, stickers or your own drawings.
- Glue and sticky tape

What to do:

1. I used a shoe box to decorate and I painted scrap paper to decorate it with.
2. Cover and decorate your box. When the paper was dry I used sticky tape to secure the edges of the paper to the box.
