

PAPER PLATE LION

Lions are my favourite animal to see at the zoo! I made my lion look like Scar from The Lion King.

What you need:

- Paper plate
- Paper
- Colouring supplies
- Glue or tape

What to do:

1. Draw and colour in a lion's face on the plate.
2. Lions have long thick manes. I made mine by cutting strips 3/4 of the length of a piece of paper. Then I used a texta to wrap the paper strips around to make them curly.
3. Attach the mane to the back of the plate using glue or tape and fluff it out. If you wanted your lion to be extra hairy you could make another mane for it's head.
4. Show everyone a photo of your finished work on the [Kids Club Online Gallery](#).
What other animals can you make from paper plates?
