# Draw Baby Yoda!

Follow the instructions below to draw Grogu from The Mandalorian. Take your time, draw in pencil so you can rub out any mistakes. Then when you are finished you can go over the pencil with a black texta or pen.

Step 1. Grab some drawing supplies. I used A4 paper and a black texta. Draw a large head shape. Then add ears with a line through them. Use my picture as a guide.

Step 2. Add in a collar under the head. Then draw two lines for the robe. Add in arms and little hands.

Step 3. Draw two really big eyes. Then draw two little circles near the top of each eye. Add in lines around the outside of the eyes.

Step 4. Draw a little nose and a mouth. Then add lines above the eyes.

Step 5. Add lines on Baby Yoda's robes.

Step 6. Colour in Baby Yoda! Take a photo and submit it to the Kids Club Online Gallery.
