

Easter Egg Basket

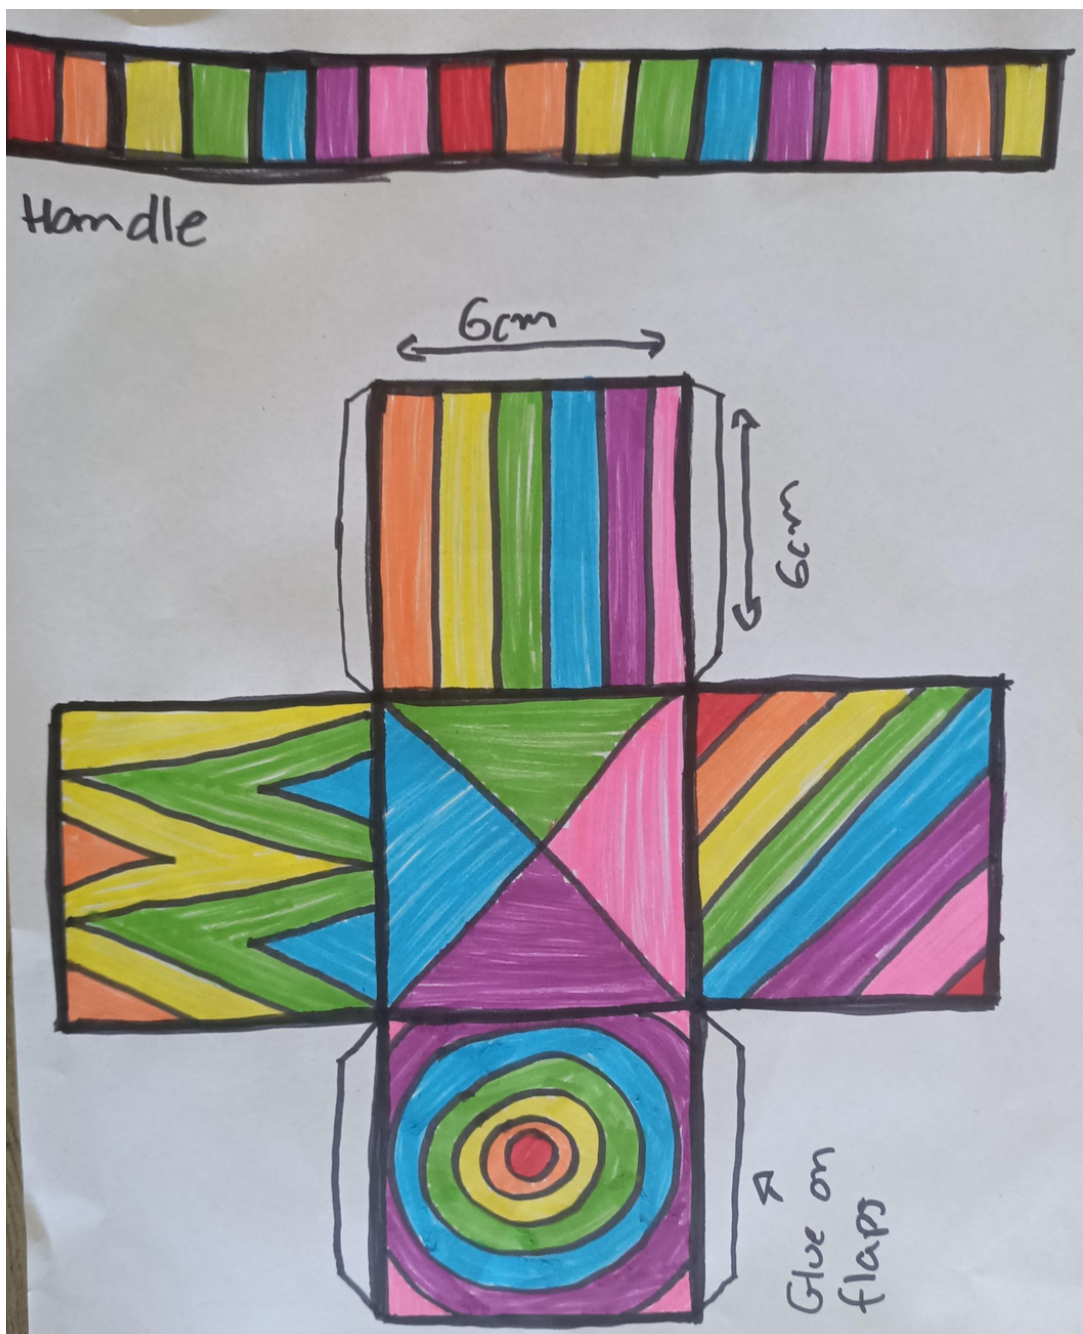

Follow these instructions to make a fun basket for your eggs!

What you need:

- Colouring supplies
- Scissors
- Glue/tape
- Ruler

What to do:

1. Print out the basket template on the last page. If you don't have a printer you can draw out the template like I have. Make sure you make each square the same size.

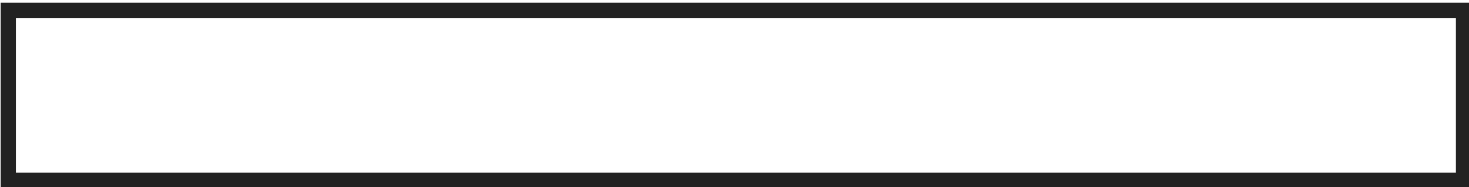

2. Decorate your basket shape before you cut it out. Cut out the basket shape. Fold along all the darker lines shown in the template on the last page. Use glue or tape to stick the flaps onto the next square to make a box shape.

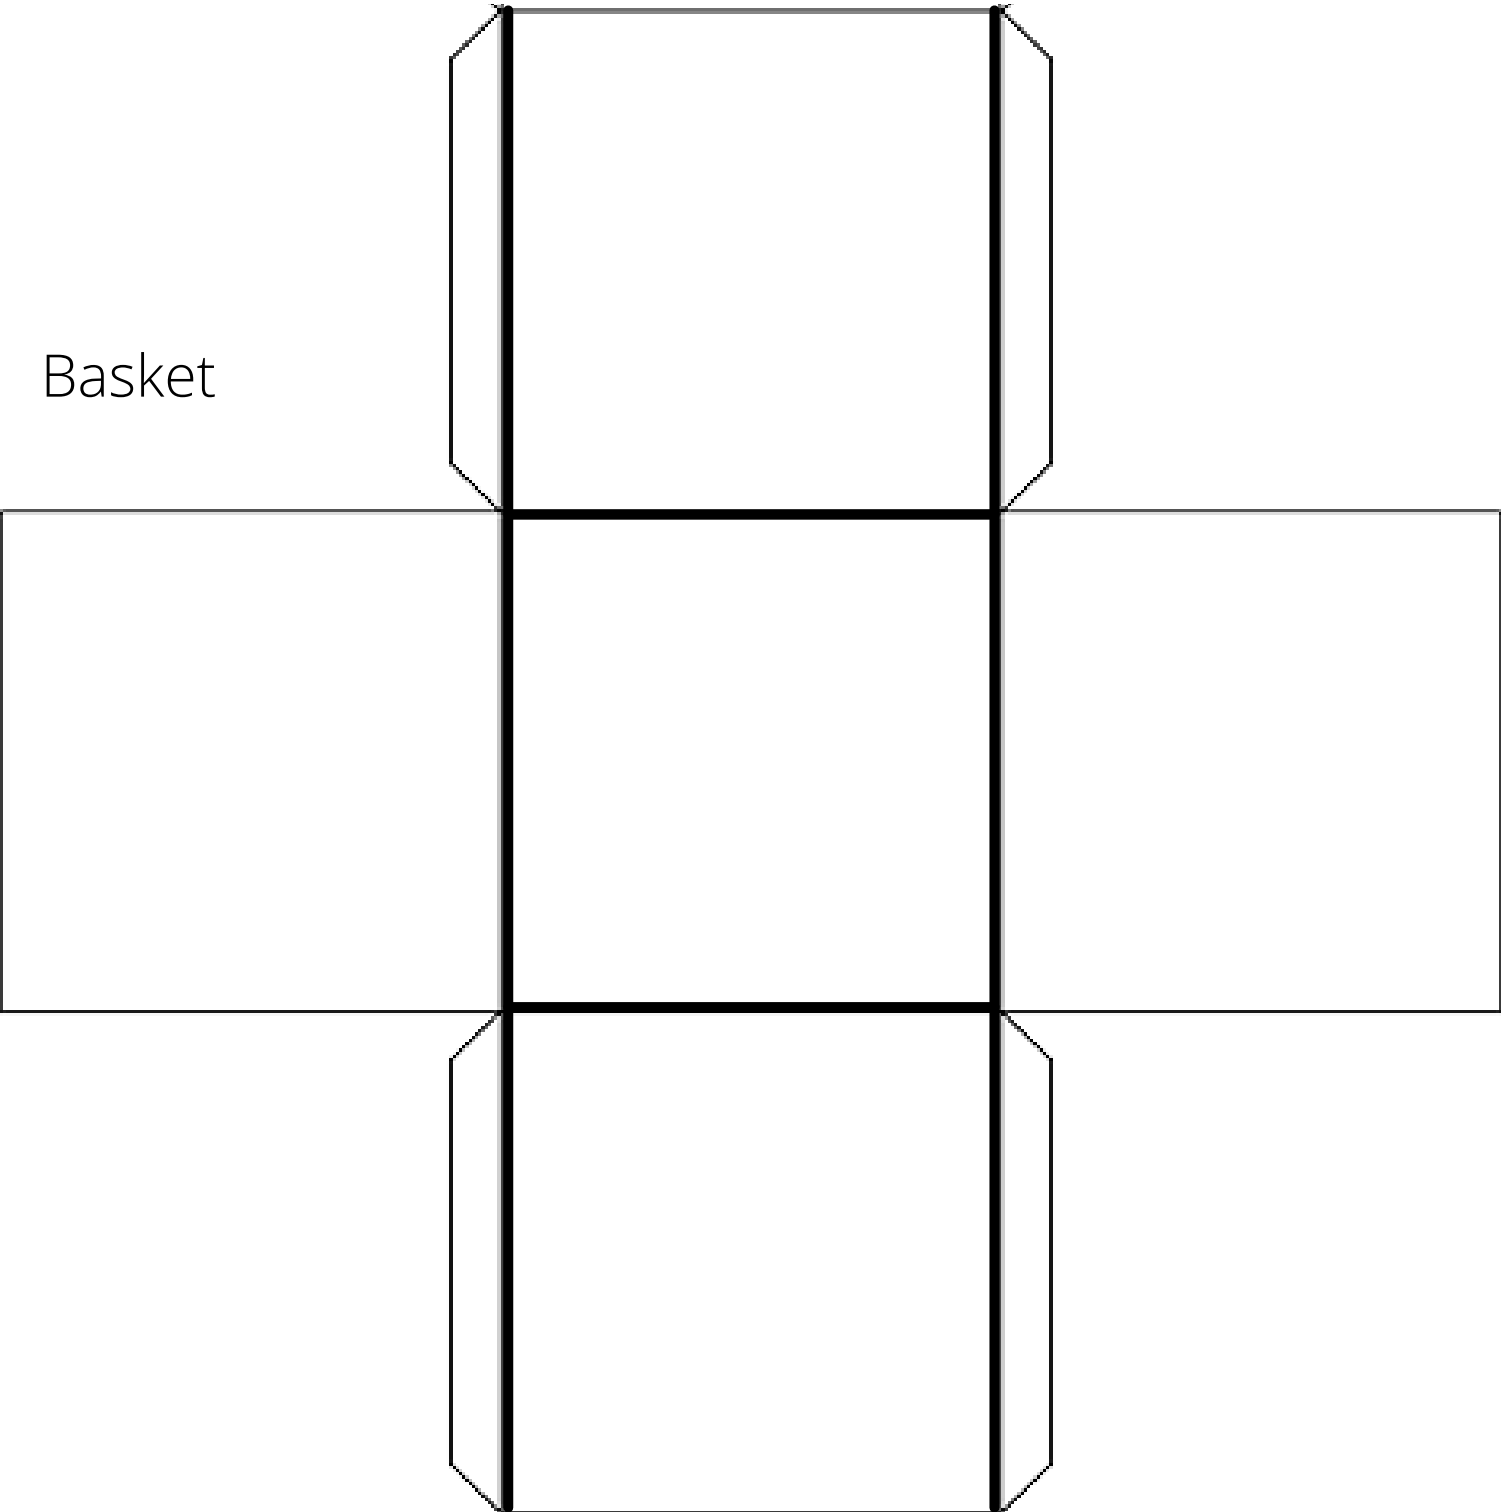

3. Cut the handle out and stick the ends into the basket. Now you have a basket for your Easter Eggs! Don't forget to take a photo and show us your basket on the [Kids Holiday Activities Gallery](#).
