

# FLOWER CARD

## You will need:

- Paper for the card and flowers
- Drawing materials
- Glue
- Scissors

## What to do:

1. Draw a few different flower and leaf shapes on paper.
2. Colour these in and cut out.
3. Fold another piece of paper in half to make a card.
4. Using glue, stick the flowers and leaves down to make a bouquet of flowers.
5. For the larger flowers, I just glued the middle parts so I could lift the petals up. This makes the flowers look 3D, like they are coming off the page.
6. Write a nice message for your mum or someone special inside the card.

Take a photo for the [Kids Club Online Gallery!](#)  
What other cards can you make?
