

Make a Spider Man Mask

- Print or draw your own mask.
- Cut around the image. Cut out holes for your eyes, so you can see while wearing the mask.
- Stick the mask to cardboard to give it strength.
- Sticky tape string or ribbon to the sides. This way you can tie the mask around your head.
- Take a photo of yourself wearing the mask. You might like to share the photo on the [Kids Club Online Photo Gallery](#)
