

# WRITE A SECRET MESSAGE!

When you write with a white crayon or oil pastel on white paper you can't see the message. However when you paint over the writing with watercolour paint the message appears! This is because the watercolour does not stick to the wax from the crayon. What secret message will you write?

## What you need:

- Watercolour paints (or acrylic paint mixed with a lot of water)
- Paint brush
- Water
- Paper
- White crayon or oil pastel

## What to do:

1. Using the white crayon or oil pastel write your message on the paper. It's tricky because you can't really see what you are writing! Press down hard with the crayon.
2. Using the watercolour paints, paint over the paper. Watch as your secret message appears!

Get your supplies ready and write your secret message.
