THE BUILDING PERMIT & THE RELEVANT BUILDING SURVEYOR (THE RBS)

The building permit issued will be an assessment of the drawings and documentation for compliance with the Building Act and Regulations and not the serviceability, quality or functionality of the work. This appointment is limited to ensuring to the work carried out complies with the Act and Regulations that are applicable at this time. The RBS is responsible for the carrying out of inspections that will be listed on the Building Permit. The builder is responsible to ensure that the RBS is given adequate notification for inspection and shall ensure that works do not continue beyond the notification stage until the inspection is approved.

PURPOSE OF INSPECTION

Inspections carried out will be the minimum required to ensure compliance with the Building Permit and not supervision of all the work. It is the responsibility of the *builder* to construct the building fully in accordance with the approved permit documents. Variations must be approved by the RBS prior to construction and those variations that require further document survey and assessment and/or approval will incur an additional fee. **Should any additional inspections be carried out other than the number allocated on the Building Permit additional fees will be charged at \$185.00 for each additional inspection.** Any additional fee required will be payable at the discretion of the RBS and must be paid before a final inspection certificate or occupancy permit is requested.

BUILDING NOTICES & ORDERS

Building Notices and Orders are formal documents prescribed in the Regulations when breaches and non compliance are identified for the purpose of securing compliance with the permit documents and other relevant provisions of the Regulations.

Notices and Orders are required to be served as a matter of course for significant areas of non-compliance or where safety is or may be compromised. In the case of routine rectification works a direction will normally be sent to the owner and/or builder as applicable and in the event of non-response within an appropriate time – 7,14 or 30 days a Building Notice will be served and further fees will be payable as per Schedule 2 of the Building Act 1993.

Note: The use of a building may also be subject to additional requirements under other legislation such as the Liquor Control Reform Act 1998 and the Dangerous Goods Act 1985.

Note: If an owner builder, there are restrictions on the sale of a building under section 137B of the Building Act 1993. Section 137B prohibits an owner builder from selling a building on which domestic building work has been carried out within 6.5 years from the completion of the relevant building work unless they have satisfied certain requirements including obtaining compulsory insurance. The Victorian Building Authority maintains a current list of domestic building insurance providers.
