

# Bubble wrap trees

## What you need:

- Bubble wrap
- Dark coloured paper
- Coloured paints
- Paintbrushes
- Scissors

## What to do:

- Draw and then cut out circles from the bubble wrap.
  - Paint on the bubble side of the bubble wrap, then place the bubble wrap bubble side down on your paper where you would like the tree tops to be. Try multiple colours on one circle.
  - Once you have done all the circles (tree tops) you want on the page, paint lines from the base of the circle to the bottom of the paper.
  - Now add small black or brown lines to create bark on the trees.
  - Dip your paintbrush in some white or silver paint and slowly flick it over the paper to create stars.
- \*This can make a mess so make sure you have newspaper underneath your work.**
