

# LEAF ART

## What you need:

- Crayons, oil pastels or pencils
- Leaves - Can be dried or fresh
- 2 Sheets of paper
- Hard surface
- Sticky tape

## What to do:

- Position the leaf or leaves on 1 piece of paper with the vein side up. You can do one leaf or several. Arrange them on the page.
- Lay your other sheet of paper over the top of the leaf or leaves. The leaves will be sandwiched between the two pieces of paper. Hold the paper steady, to make sure the leaves don't move around. If they move too much, tape the leaves to the bottom paper.
- Turn the crayon or pastel on its side and gently rub over the top sheet of paper. If you use coloured pencils, angle your pencil and use the side of the pencil tip. As you rub, you should see the leaf shapes and veins appear.
- Once you have finished, remove the leaf from under the paper.
