

MONSTER MASHUP

Some monsters are cute.

Some monsters are scary.

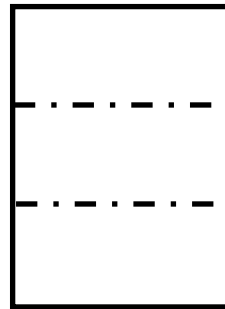

This is a drawing game that will create monsters that are a mashup of lots of different types of monsters.

You will need: Paper for drawing on and pencils/textas/crayons.

Friends and family to join in the game.

Step 1: Fold your paper into thirds.

Step 2: Draw a monster head in the top third of the page.

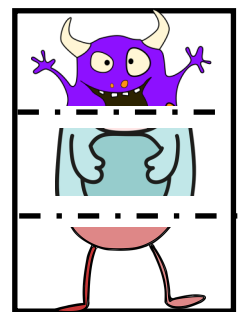

Step 3: Fold the top third of the page over, so it hides the head of the monster and pass to the next person.

Step 4: Draw the body of the monster in the middle third of the page.

Step 5: Fold the middle third of the page over, so it hides the body of the monster and pass to the next person.

Step 6: Draw the legs and feet of the monster in the bottom third of the page.

Step 7: Unfold the whole page and see what type of monster mashup you have created.

See some funny examples on the next page. Don't worry if the head, body and legs don't quite match up, that's part of the mashup fun!

You can share your monster mashups to the [Kids Club Online Gallery](#).
