

Paper Chain

Basilisk

Make your own basilisk from The Chamber of Secrets!

What you need:

- Paper
- Textas/pencils
- Ruler
- Scissors
- Glue/tape

What to do:

1. Cut paper into strips. I used two sheets of A4 paper and each strip is the length of the paper and a ruler width wide.
2. Decorate the paper strips with a pattern for the snake's body, like stripes or scales.
3. On one strip, draw the head shape. Cut out around the head. Draw a tail on another strip and cut around this. Draw a tongue and cut out. See pictures 2 and 3.
4. To start making the body of the basilisk, glue the ends of one paper strip together to make a ring. Thread another strip through this ring and glue the ends. See pictures 4 and 5.
5. Attach the head and tail last. Stick the tongue under the head.
6. How long can you make your basilisk? Take a photo and show us on the [Kids Club Online Gallery!](#)
