

Drawing With Chalk

Do you like drawing with chalk?

Do you like to draw outside?

Well, you might like to try drawing a chalk design or picture on your garden concrete, your driveway or on a brick pathway.

Make sure to ask a grown up before drawing on any outside surfaces.

You might draw a pattern or shapes, write a slogan or a quote from a book, or draw a picture.

Some chalk artists can spend hours crafting their pictures. If you are outside, make sure to wear a hat and sunscreen.

If you would like to share your creation, you can upload a photo at the [Kids Club Online Gallery](#)
