

LAVA LAMP EXPERIMENT

What you need:

- Glasses x 2
- Spoon
- Water
- Oil
- Food dye
- Dissolvable Aspirin tablet

What to do:

- Fill 1 glass 1/4 of the way with oil.
- In another glass, fill it 1/4 of the way with water, add a few drops of dye and mix with a spoon
- Pour the water into the glass with the oil.
- Break an aspirin tablet into a few small pieces, and drop them into the glass of water-oil one piece at a time.
- Watch your lava lamp erupt into activity!
