

# Paper Roll Pirate

## What you need:

- Paper roll
- Paper
- Scissors
- Glue/sticky tape
- Drawing supplies

## What to do:

1. If you do not have a paper roll (like a toilet paper or paper towel roll) you can roll up a piece of paper and stick it together.
2. You can decorate your pirate on the roll, or draw the clothing on paper and glue onto the roll. I drew some stripes for the top, black for the pants and coloured in skin and a face.
3. To make the pirate hat, cut a small rectangle (mine was a quarter of the size of an A4 piece of paper) and fold in half.
4. Move the rectangle so the open end is facing you and the top end is a folded edge. Fold the top corners down so they look like the picture.
5. Fold the edges up to meet the triangles from the step above.
6. Stick your pirate hat on the pirate! Take a photo and upload to the [Kids Club Online Gallery](#).
