

Pirate Hook

What you need:

- Plastic cup
- Foil
- Something to make a hole in the bottom of the cup,
****Ask for adult's help**
- Tape

What to do:

- Start with a square piece of foil, carefully roll it and squish it into a long thin sausage shape.
- With an adult's help, make a small hole in the bottom of the cup, it shouldn't be too big, the foil needs to fit in snugly.
- Push your foil through the hole and shape into a hook.
- Bend the foil inside the cup so it stays in place, you can add tape if needed.
- Put the cup on your hand, you now have a pirate's hook for a hand.
