

# Pirate's Parrot

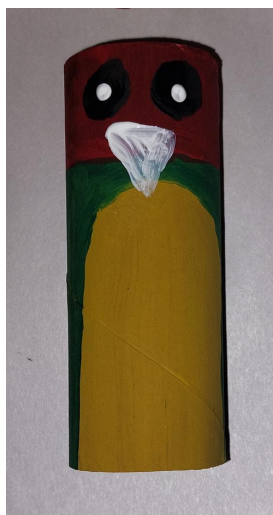

## What you need:

- Old toilet paper roll
- Glue
- Textas or Paint
- Paintbrushes
- Feathers
- Pipe cleaner
- Paper
- Tape
- Holepunch

## What to do:

- Paint or colour your toilet roll, make sure to do the top half a different colour to the bottom, this will be the parrot's head.
- Once dry, you can add eyes, belly and beak. You can make these out of paper and glue them on, or paint them on.
- Stick some feathers inside the top of the roll to create a crest on the parrot's head.
- Add some feathers to the sides for wings.
- Add feathers to the back for the parrot's tail.
- Using the holepunch, make a hole on both sides of the roll close to the bottom. This is where you will thread your pipe cleaner through. This will create an armband, so your parrot will stand on your wrist.
