

Superhero Shield.

If you were a superhero (or a supervillain) what would your shield look like?

What you need:

- Paper plate
- Cardboard (you can use an old cereal box)
- Colouring supplies
- Scissors
- Glue/sticky tape

What to do:

1. Draw your patterns for your shield on the paper plate.
2. To make the handle so you can hold your shield, cut a strip of cardboard and stick the two ends to the back of the shield. Or you can fold a strip of paper a few times to make it strong like I did here. Your shield is finished!
3. If you would like your shield to be a different shape, there are some templates on the pages below to get you started.
4. Show us your shield on the [Kids Club Gallery!](#)
