

# Decorate a Wood Placemat

## What you need:

- Wood placemat and/or coaster. You can get plain thin pieces of wood for these from most shops that sell craft supplies
- Textas. I used a mix of colour textas, permanent markers and metallic markers

## What to do:

1. Draw your design on the wood placemat. The ink from the textas takes longer to dry so when you finished, leave the placemat to dry for a couple of hours.
