

MAKE A CHRISTMAS STOCKING

A Christmas stocking is a great decoration to hang up on Christmas Eve.

You can use a stocking to hold small gifts, cards or food treats.

Hang them on the end of your bed, hang them on the mantelpiece over your fireplace, or place them under the Christmas tree.

You can make your own Christmas stocking out of paper or fabric. Paper stockings are great as decorations. Fabric stockings will have greater strength for holding presents.

You can also use a sock as your Christmas stocking. Choose one with a bright design. You might want to add ribbons, fur or pompoms for a more “Christmassy” feel.

Use the template on the next pages to print, cut out, and create your own decorative stocking. Or you can draw your own design.

Place the two pages with the design facing outwards, matching the shapes. Then glue, sticky tape or staple the two pieces together.

You may like to share your creation on the [Kids Club Online Gallery](#).
