

Stick Windchimes

What you need:

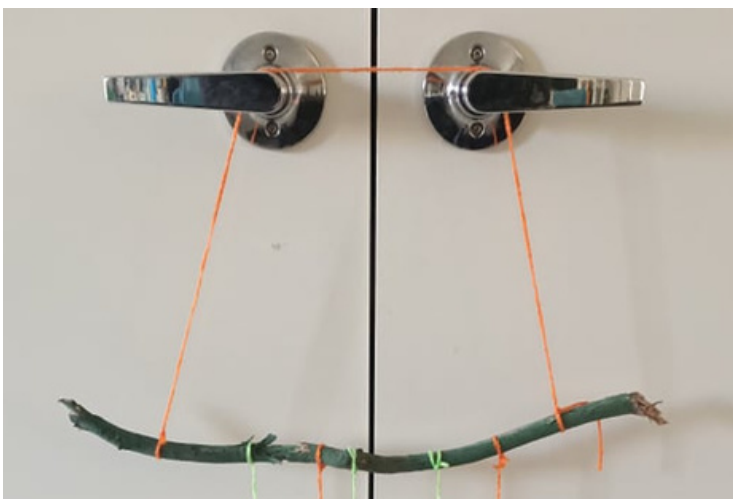

- Sticks
- String
- Anything else you can find on a nature walk
- Paint

What to do:

- Paint all your sticks different colours and designs.
- Leave them all to dry.

- Choose the largest stick out of your sticks, this will be the top of the windchime.
- Cut a long piece of string, tie it to both ends of the stick, this will create a handle to hang it.

- Tie string around your other sticks and then tie the other end of the string to the top handle stick. You can decorate the sticks by wrapping string around them and tying a knot at both ends.

- If you have other items you would like to hang from your windchime, tie string around those and tie the other end to the top handle stick.
- Hang your windchime outside.
