

# 2022 BANNER

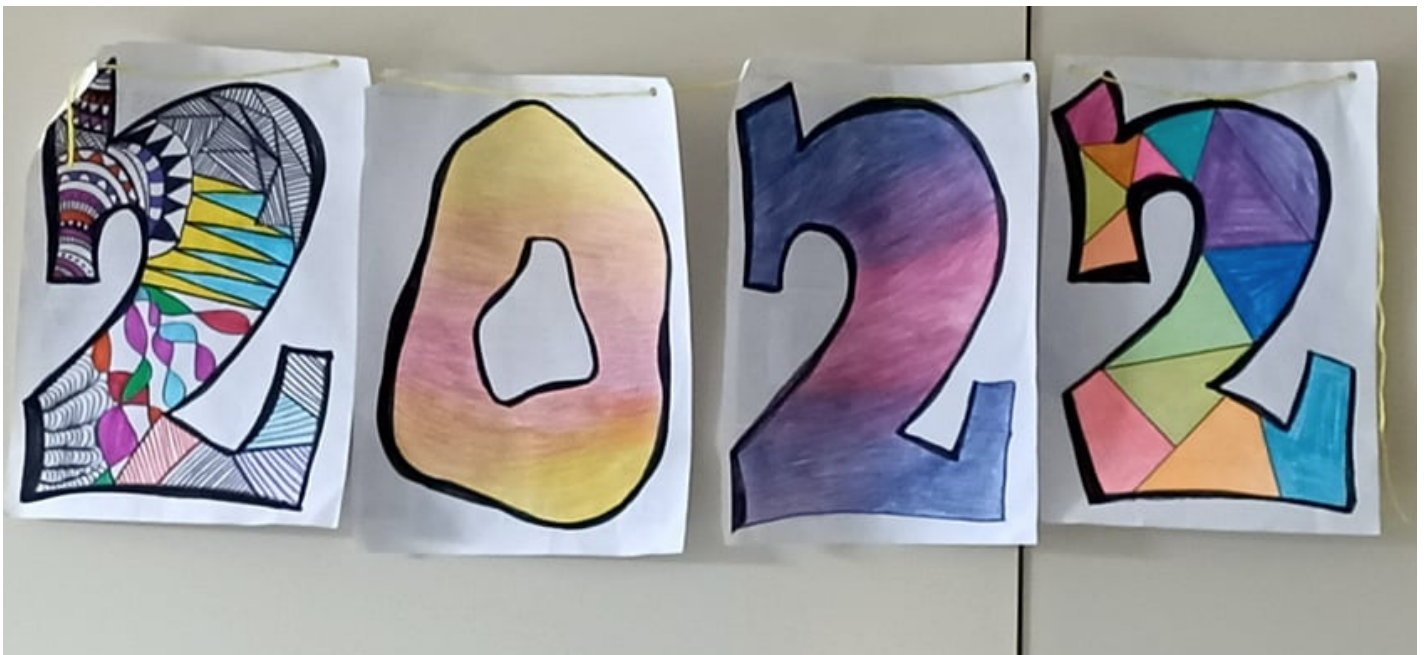

To celebrate the end of this year and the beginning of 2022, let's make a banner to hang up at home!

## What you need:

- Paper. I used one sheet of paper for each letter/number.
- Colouring supplies
- String

## What to do:

1. Write out your new year's message on the pieces of paper. If you want to use a cool style of writing, there are examples on the next page to inspire you.
2. Outline the letters and numbers in black textas, making the outline thick so it stands out. Then colour in or decorate each one.
3. To hang your banner up, make a hole in the two top corners of the paper, and thread the string through. Or you can blu-tack the banner to the wall.
