

Dress-up Mask Party

Want to dress up and have some fun?

A mask can be a great costume for a party.

Look though all the masks and decide which one you like best.

Print the mask out.

Check the mask size fits your face. Stick the mask on some cardboard to give it strength and stability. You might tie some string to each side of the mask so you can tie it around your head. Or you might put the mask on a stick and hold it in front of your face.

Don't forget to cut out the eyes, if you want to look through the mask.

Do you want to add more decoration to your mask? Use whatever craft materials you have at home: foam, paper, string, ribbon, glitter, crepe paper or stickers.

Can you create a costume to go with your mask?

Share a photo of your creation on the [KidsClub Online Gallery](#).
