

GRAFFITI STREET ART

What you need:

- Paper
- Black texta
- Colouring supplies
- Ruler
- Rubber

What to do:

1. First you need to sketch out your design. Write your name using graffiti or street art style text in the middle of the page.
2. Now add a speech bubble-like pattern around your name.
3. Draw in the background. You can keep it plain, or draw a brick or stone wall.
4. Go over each section with black texta, then rub out the original sketch.
5. Now to colour everything in! You can keep the letter a solid colour or draw patterns.
