Paint

Dab the paint on the tip of the paintbrush to make a leaf effect.

Colour Pencil

I used different shades of brown pencil to colour in the trunk to make it look lifelike. I used pencil strokes to draw the leaves.

Crayon

I coloured the trunk in light brown, then added strokes of dark brown for texture. I used the same technique for the green leaves.

Pen

I used rough lines to draw the tree and added in green and orange detail to add some colour.
