

Abstract Handprint Art

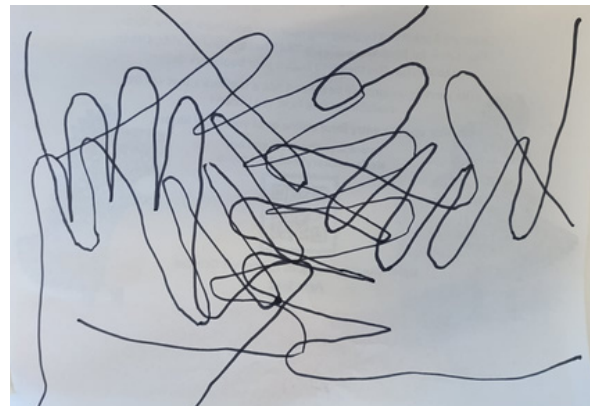

This is a nice artwork to do with people who are important to you. Ask everyone to draw their handprint onto paper and then you have a special piece of art.

What you need:

- Paper
- Pencils/textas

What to do:

1. Get everyone to draw their handprints on the paper using black texta. It doesn't matter if they overlap.
2. Now colour them in. Colour in each section a different colour.
