

CUPCAKE LINER DRAGON

What you need:

- Cupcake patty cases
- Paper
- Glue
- Pencils
- Printer (optional)
- Scissors

What to do:

- Print the dragon head from the next page or draw your own dragon head.
- Cut out the dragon head and leave it aside.
- Fold your patty cases in half.
- Start sticking your patty cases down, these will be the body and tail of the dragon. Start from just under where you'd like the head of the dragon to be and overlap the next patty case and continue until its the length you like.
- Stick the head of the dragon on top of the first patty case you originally stuck down.
- Draw on legs (optional).
