

Paper Dragon

To make a paper dragon you will need:

- Paper plate or paper
- Colouring supplies
- String
- Scissors
- Hole punch

What to do:

1. Draw a spiral on your paper plate or piece of paper. Where you start the spiral, draw the dragon's head.
2. Colour in the spiral on both sides of the paper.
3. Cut out the spiral along the black lines you drew. You should have one long spiral that folds back into a circle shape when you lay it down.
4. Punch a hole in the end and tie some string through. Hang the dragon up. If you hang the dragon outside, it will twirl around in the wind!
5. Take a photo and upload to the [Kids Club Online Gallery](#).

Dragon's head
