

Cardboard Lacing Hearts

What you need:

- Corrugated cardboard
- Pencils
- Yarn
- Single hole punch
- Scissor

What to do:

- Draw a heart on your cardboard and cut it out.
- Use your hole punch, poke holes around the edges, making sure that you're not too close to the edge.
- Cut a long length of yarn. Tie a knot in the end of it.
- Start threading from hole to hole.
- You can thread on the outside of your heart or in the centre.
- Try it with other shapes not just hearts.
