

Paper Roll Viking

What you need:

- Paper roll
- Paper
- Wool
- Pencils/textas
- Scissors
- Glue and sticky tape

What to do:

1. Draw and colour the Viking onto the roll. I drew clothes and a face.
2. Cut pieces of the wool and stick these onto a strip of sticky tape. This will be the beard. Stick the beard onto the face of the Viking. I cut some more wool that was longer and plaited this and used tape to stick it onto the beard.

3. To make the hair, cut pieces of wool and use tape to stick these to the head. You can trim the hair and beard to make it the length you want for your Viking.

4. On paper, draw and colour the Viking hat. Cut this out and stick onto the head.

5. If you want to make a Viking ship, check out the Tissue box Viking Ship activity!
