

WHAT CAN I DO WITH A BOX?

A box was delivered to your house.

You wonder what you can do with the cardboard box other than put it in the recycling.

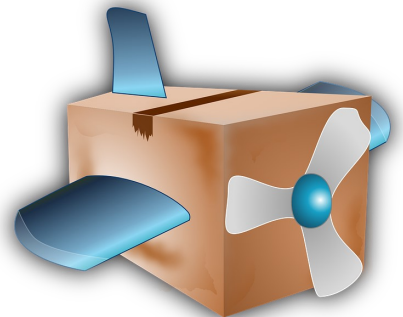

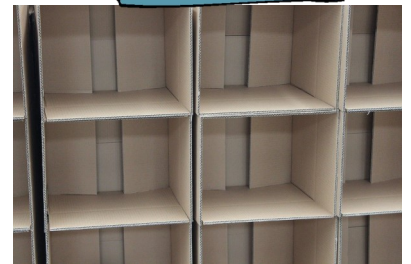

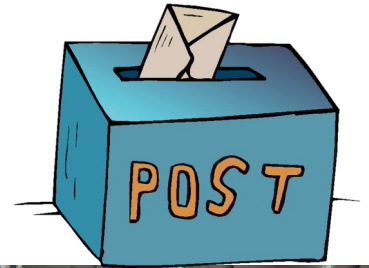

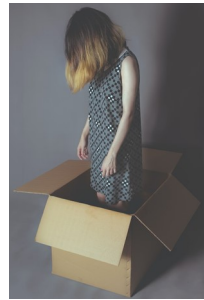

Here's a few ideas:

Decorate the box and turn it into a post box for your family. Leave notes/cards/gifts in the post box for each other.

Put lots of empty boxes together and make some shelves for your books and toys. Your grown ups will love that you tidied your room.

Build an airplane or rocket ship that you can actually sit in. You can keep it for yourself, or give it to someone as a present.

Make a costume using the box. It could be a robot, a character from Minecraft or any kind of character. Keep the box plain or decorate it.

WHAT CAN I DO WITH A BOX?

Make a play area for your pet. Cats love to hide in boxes. So do dogs.

Open up your box and use it to make a very large piece of artwork. You could use paint, collage or texta. Create your art in the garden, so you have room to spread out.

Create a box city. Lots of different levels. Lots of different shaped boxes. Great fun to play with. You can make doors, windows and different levels.
