

Wolf Leaves

What you need:

- Large leaves
- Black paper
- A4 white paper
- Pencils/ textas
- Glue
- Googly eyes
- Scissors

What to do:

- Cut out 2 medium sized triangles from the black paper. These will become the wolf's ears.
- Cut out 3 medium sized circles. These will be the eyes and nose.
- Arrange your leaf on the A4 white paper, glue down the 2 triangles behind the leaf to create ears.
- Glue down the leaf on top of the triangles.
- Glue 2 circles where you would like the wolf's eyes to be. Glue the googly eyes on top of those circles. Draw some lines above the eyes for eyebrows.
- Glue the remaining circle at the bottom of the leaf to create the snout, draw lines coming from the circle for whiskers.
