

# Woven Easter Eggs

## What you need:

- Coloured paper
- Scissors
- Pencils/ Textas
- Glue

## What to do:

- Draw a large egg on a piece of paper and cut it out.
- Carefully cut vertical lines down the egg, without cutting through the edge of the egg. **\*you can do this by gently folding the egg in half and cutting it while folded.**
- Cut strips of coloured paper.
- Feed a coloured strip through your cuts in the egg, over one cut and under the next so you end up seeing coloured squares.
- Trim any extra coloured paper and glue the edges of the coloured paper down on the back of the egg.
- Colour in the egg, be creative with your designs.
