

Hippo Puppet!

What you need:

- Paper
- Glue/tape
- Pencils/textas
- Scissors

What to do:

1. Print the template on the next page, or draw your own.
2. Colour in the hippo. Then fold along the dotted lines like in the picture, gluing down one side.
3. Fold in half. Then fold the head and bottom over so you have a square.
4. Draw teeth and ears on paper, colour in, cut out and stick onto the hippo.
5. You can make your hippo move its mouth by slipping your fingers into the pocket created when you glued and folded in step 2.
