

# Lantern Suncatchers

## What you need:

- 6 popsicle sticks
- Textas
- Contact paper
- Pieces of coloured tissue paper, paper or cellophane
- Blu-tack
- Scissors
- Hole punch
- String

## What to do:

- Decorate the popsicle sticks with your textas.
- Use the blu-tack to secure the contact paper onto your work surface - contact side down.
- Peel off the backing paper to reveal the sticky side of the contact, which should be facing up.
- Start creating your lantern. Place the popsicle sticks, with the decorated side down on top of the contact. Firstly use 3 sticks to create a triangle shape, then add 2 popsicle sticks downwards but on a slight angle towards the centre, using your last stick create the bottom.
- Fill the inside of the lantern with coloured pieces.
- Gently pull the contact paper off the blu-tack and fold in all the sides, covering the back of the lantern.
- Cut off any excess pieces.
- Using the hole punch make a hole in the top, and thread the string through.
